Le Nguyen Gia Hung

AI undergraduate | Machine learning, computer vision & speech

First & corresponding author of a published AJCAI 2025 paper.

heiontheway@gmail.com | +84 394 262 651 | Ho Chi Minh City, Vietnam

Education

FPT University — B.Eng. in Artificial Intelligence Expected Dec 2027
GPA: **8.62/10.0**. Certificate of Merit: semesters 3, 4, 5 and 6.

Technical Skills

Languages & data: Python, SQL/PostgreSQL, Pandas, NumPy.
Machine learning: PyTorch, Transformers, TensorFlow/Keras, Scikit-learn, OpenCV.
Evaluation & tools: SHAP, Integrated Gradients, DiCE, chronological cross-validation; Git, Docker, Linux, Weights & Biases, Streamlit, FastAPI.

Selected Research & Projects

SmokeNet: Air Quality Forecasting Jun – Nov 2025
First & Corresponding Author; published at AJCAI 2025

- Designed a Transformer to forecast $PM_{2.5}$; used seasonal embeddings, reconstruction loss and chronological evaluation on **4+ years** of OpenWeather data.
- Reported **MAE 0.7470**, R^2 **0.9545** and **35.9% lower MAE than XGBoost** on the 2024 held-out evaluation. Inspected forecasts with SHAP, Integrated Gradients and DiCE. Case study.

MERR-GAT: Multimodal Emotion Recognition Oct 2025 – Present
Second & Corresponding Author; research in progress

- Develop emotion recognition from speech and text with **WavLM + Compact Conformer**, BERT/RoBERTa and dual-channel graph-attention fusion.
- Evaluate on IEMOCAP, RAVDESS and MELD using WA, UA and Macro-F1; experiments are ongoing. Methods and code links.

Vietnamese Speech Recognition Sep 2025 – Present
Co-Researcher & Co-Author; research in progress

- Develop a **5.4M-parameter** CNN–residual BiLSTM with CTC on **745 hours** of Vietnamese speech; reported **WER 33.09%**, **CER 15.28%**. Compare with PhoWhisper. Evaluation notes.

PPE Detection — YOLOv8, OpenCV, Streamlit Course project

- Built **9-class** detection, safe/unsafe compliance logic and a webcam interface with violation reporting. Project details.

Leadership & Cloud Learning

SpeedyLabX, FPT University Jan 2025 – Present
Founder & Student Lead

- Lead a **10-member** undergraduate group with weekly technical workshops, paper reading and shared conference-submission workflows.

First Cloud AI Journey — FCAJ Cloud Intern, Team NeuraX 2026
AWS Vietnam program; cloud learning and project work documented in the program journal.

Publication

Gia-Hung Nguyen Le et al. "Proactive Air Quality Forecasting and Health Alert System for Melbourne." *AJCAI 2025, Springer LNAI*. DOI: 10.1007/978-981-95-4969-6_34.
Three additional manuscripts under review; full titles and contributions in the research CV.
